

THE CLAUDINE ARRIVES.

A Splendid New Steamer for the Inter-Island Trade—All Modern Appliances.

The Hawaiian steamer Claudine, which left Glasgow May 21, arrived in port Monday, August 4th and docked at the Mail wharf. She was in command of Capt. W. M. Dodd, who will be remembered as the popular commander of the S. S. Suez when she was running between Honolulu and San Francisco.

After leaving Glasgow, as stated above, the first stopping place was St. Vincent, on May 15th, the steamer having lost her propeller blades and was compelled to sail two hundred and fifty miles. She was tipped over and four new blades put in, leaving St. Vincent again on May 24th. On June 11th, at midnight, she arrived off Montevideo, but could not communicate with the shore until the 13th, owing to bad weather.

The Claudine anchored at the following places in the Straits: June 25th Boja Bay, 26th Port Tamar, 27th Columbine Cove, 28th Port Bono, 29th Port Churrua, 30th Eden Harbor. On July 1st she cleared the Straits and entered the Pacific. Capt. Dodd gave us a very graphic description of the trip through the Straits. At one place the hills rose to a height of 1500 feet on either side and it was a very weird sight. One night while at anchor they heard the noise of wild animals. Some very pretty waterfalls were seen.

Between Glasgow and Madeira the steamer experienced bad weather and heavy seas. From thence all the way to the Straits moderate weather. Fine weather was the rule to Honolulu. Only one vessel was sighted. She made from 190 to 200 miles a day on a consumption of only seven tons of coal a day. The Claudine is a twelve knot boat on a consumption of twelve tons of coal a day.

The island of Hawaii was sighted at 4 A. M. Sunday, August 3d. She passed along the Hamakua coast. Capt. Dodd said it was raining heavily and he noticed some of the most beautiful cataracts he ever saw. The Claudine came consigned to Messrs. Wm. G. Irwin & Co., Limited, and arrangements are in progress for her transfer to the Wilder's Steamship Company, who will place her in the inter-island trade. She will go on the Marine Railway in a day or so to have new propeller blades put in and her bottom cleaned.

The Claudine is a steel vessel of 785 tons. Her length is 184 feet, breadth 32 feet, depth 17 feet, cylinders 18, 29 and 45, stroke 30, working pressure 160, horse-power 1,000. She was built by Napier, Shanks & Bell of Glasgow, the engines by Dunsenair & Jackson of Govan. There are twenty-four state rooms each with two berths elegantly fitted up. There are electric bells and lights, and all the modern appliances. Capt. Dodd says she is an excellent sea boat. The Claudine is a most valuable addition to our inter-island fleet of steamers.

Union Iron Works. An ADVERTISER representative dropped into the Union Iron Works Tuesday afternoon and found quite an active state of affairs. Over seventy hands are employed at the present time, and all are kept busy. The erecting shop is nearly completed and the boiler shop is under construction. A more convenient establishment could not be desired, especially when all the buildings are completed. Superintendent Robt. More showed us round and explained things. The latest improved tools are used in every instance, and the whole buildings can be lit up by the electric light, a dynamo being on the premises. At the time of our visit, considerable work was being shipped away for the other islands. There is a decided go-ahead about the place.

A Carriage Accident. Tuesday afternoon Mrs. Dr. J. M. Whitney was driving into town alone when, near Thomas square one of the wheels of the carriage came off. The horse got startled and broke into a gallop. A little further along another wheel was dislodged and the carriage turned over and Mrs. Whitney was thrown out. Fortunately no bones were broken, but she was rather badly bruised and will be confined to the house for a few days. The accident was the result of carelessness on the part of the man in charge of the carriage. He had been oiling the wheels and when through forgot to put the nuts on again.

The San Francisco Chronicle, of July 24th, says: "The Nipise, now at Honolulu, is soon to be brought to San Francisco, where she will exchange her present officers, who have been with her ever since the Samoan disaster, for those of the Adams, which is to be put out of commission. The Nipise is in condition for at least a year's more cruising."

DR. J. COLLIS BROWNE'S CHLORODYNE.

THE ORIGINAL AND ONLY GENUINE. Advice to Invalids.—If you wish to obtain quiet refreshing sleep, free from headache, relief from pain and anguish, to calm and assuage the weary aching of protracted disease, invigorate the nervous media, and regulate the circulating systems of the body, you will provide yourself with that marvellous remedy discovered by Dr. J. Collis Browne (late Army Medical Staff), to which he gave the name of CHLORODYNE, which is admired by the profession to be the most wonderful and valuable remedy ever discovered. CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis, Asthma, CHLORODYNE acts like a charm in Diarrhoea, and is the only specific in Cholera and Dysentery. CHLORODYNE effectually cures short attacks of Epilepsy, Hysteria, Palpitation, and Spasms. CHLORODYNE is the only palliative in Nephritis, Rheumatism, Gout, Cancer, Toothache, Menstruation, &c. From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, January 5, 1880. To J. T. Davenport, Esq., 31, Great Russell Street, Bloomsbury, London. Dear Sir.—We embrace this opportunity of congratulating you upon the wide-spread reputation this justly esteemed medicine, Dr. J. Collis Browne's Chlorodyne, has earned for itself not only in Hindostan, but all over the East, as a remedy for general utility, we must question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are sorry to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their renown there will be but evanescent. We could multiply instances of infirmities of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhoea and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleraic Diarrhoea, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a deliberate breach of faith on the part of the chemist or prescriber and patient alike. We are, Sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists. CAUTION.—Vice-Chancellor Sir W. Page Wood stated that Dr. J. Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant Freeman was a deliberate untrue, which he regretted to say, had been sworn to.—See "The Times," July 13, 1864. Sold in bottles at 1s. 1½d., 2s. 9d., 4s. 6d., and 11s. each. None is genuine without the words "Dr. J. Collis Browne's Chlorodyne" on the Government stamp. Overwhelming medical testimony accompanies each bottle. CAUTION.—Beware of Piracy and Imitations. Sole Manufacturer—J. T. DAVENPORT, 23 Great Russell Street, Bloomsbury, London. [1894-5m]
